

Roy Heim

President, Heim Construction Company

Roy Heim is the president of Heim Construction Co. headquartered in Orwigsburg, PA. Roy is an elected school board member and an appointed vocational tech board member for the Blue Mountain School District in Schuylkill County, PA. Roy is also a member of several associations including the Associated Builders and Contractors, the Associated General Contractors, and the Associated Pennsylvania Constructors.

Roy attended K-12 and graduated of Blue Mountain High School in Schuylkill, PA. During high school was also a carpentry student for four years at the Schuylkill Technology Center, a Vocational Technical School.

Roy had a few construction jobs during high school and upon graduation, he went to work for Heavy Highway Contractor, Geo. R. Lynn. After approximately two years Roy was offered a position in Homer, Alaska to work on a 3-mile tunnel, dam, and hydroelectric plant project.

In 1990, Roy moved back home to Schuylkill County and opened Roy A Heim Construction. Completing sidewalk concrete and remodeling projects. Over the next few years, he put on 2 then 3 employees.

In 1994, Roy married Deborah. Roy and Deborah worked together building the business and in 1994 they incorporated their venture, Heim Construction Co., Inc.

Today, Heim employs approximately 95 experienced and dedicated people. At this time Heim Construction has two divisions, an Infrastructure division that has completed projects such as Dams, Water Treatment Plants, Streetscapes, and Small Bridge Project. The General Construction division has completed projects such as 30,000sf Office Additions, Hospital Renovations, Surgery Centers, and Dormitory for Penn State as well as residential remodeling. Heim's newest addition is the Design phase, with 3D renderings to help customers envision their project before they break ground or demolition has started.
